"with" is a very common word and was not included in your search. [\[details\]](#)
Lowercase "or" was ignored. Try "OR" to search for either of two terms. [\[details\]](#)

Patents

Patents 1 - 10 on dummy or fake with data. (0.05 seconds)

System for display of prices and related method

US Pat. 5198644 - Filed Apr 16, 1992 - Diablo Research Corporation

The time GATEWAY count is relayed to the **Data Manager** as above. close 00 **Dummy**

Data—The Ceiling Node will generate **fake** Initialize address and **data** to be ...

Method and apparatus for decoding MPEG video signals with continuous data transfer

US Pat. 6574273 - Filed Jan 12, 2000 - Sony Corporation

Fake macroblock **data** 43 is a macroblock 20 header for pictures that ... VLB 24

decodes bcts for MB (I) and stores the bcts with a **dummy** header in CM1 29. ...

Method and apparatus for decoding MPEG video signals using multiple data transfer units

US Pat. 6542541 - Filed Jan 12, 2000 - Sony Corporation

Fake macroblock **data** 43 is a macroblock header for pictures that ... In step

S609, VLB 24 decodes bcts for MB (I) and stores the bcts with a **dummy** header in ...

Optically readable card carrying digital data, and an access control system using said card

US Pat. 4605846 - Filed Mar 7, 1984 - Societe d'Electronique de la Region Pays de Loire

... treat **dummy** marks differently from the way it treats **data**- significant marks.

This makes the cards difficult to **fake** using commonly available equipment. ...

Non-blocking, self-routing packet switch

US Pat. 4797880 - Filed Oct 7, 1987 - Bell Communications Research, Inc.

The actual and **fake** pack- input port reserved an output port during the ...

network. causes a **dummy** packet containing no actual user **data** It should be noted ...

Method for controlling a head during a starting operation of a disk storage device

US Pat. 5506831 - Filed May 10, 1994 - Fuji Electric Co., Ltd.

Although the **fake** erasure section may be prevented by storing the **dummy data** on

the gaps between the tracks in the **data** storage zone, it causes other ...

Security system for replicated storage devices on computer networks

US Pat. 7146499 - Filed Sep 30, 2002 - International Business Machines Corporation

... the user may be 5 redirected to a partition containing "**dummy**" or **fake data**

seemingly normally. For example, if an authorized user attempts access to a ...

Integrity mechanism for data transfer in a windowing system

US Pat. 5590266 - Filed Oct 11, 1994 - International Business Machines Corporation

... the X Server will not generate **fake** ids for multiple requests. ... **data** transfer

to take place; wherein the windowing system uses **dummy** window ...

Threshold alarms for processing errors in a multiplex communications system

US Pat. 4817092 - Filed Oct 5, 1987 - International Business Machines

... CME Card ID Kickoff Abort 15 **Dummy** Exit Decision Tree **Data** Base Initial Index

... Error Displays Pending Soft Down (PSD) Design Overview **Fake** Card Types ...

Method for transferring data upon request using permanent identifier

US Pat. 6615045 - Filed Jul 15, 1999 - Lucent Technologies Inc.

Alternatively, the variable identifier includes **dummy data** 35 (ie, **data** identifiable as **fake data**). As a further alternative, the variable identifier ...

Patents

Patents 1 - 10 on encryption with sequence. (0.22 seconds)

Remote-auditing of computer generated outcomes, authenticated billing and access control, and ...

US Pat. 5970143 - Filed Aug 8, 1996 - Walker Asset Management LP

All messages communicated in Program Message Response block in the following format: this protocol are protected by **encryption** and **sequence** New Program ...

'Virtual' encryption scheme combining different encryption operators into compound encryption ...

US Pat. 5933501 - Filed Aug 1, 1996 - Harris Corporation

As described above, an **encryption** operator **sequence** may be assembled using each of the three operators as participants that are permuted into an arbitrary ...

Integrated network security system

US Pat. 5237614 - Filed Jun 7, 1991 - Security Dynamics Technologies, Inc.

One advantage of having a large **encryption** character **sequence** is that part of this character **sequence** can be used for encrypting all or selected ...

Security system for SSTV encryption

US Pat. 4484027 - Filed Nov 19, 1981 - Communications Satellite Corporation

... with an **encryption** control signal a program signal representing information, ... **sequence** segments to said transmit signal processor as said **encryption** ...

System and method for scheduling broadcast of and access to video programs and other data using ...

US Pat. 5758257 - Filed Nov 29, 1994

The **encryption** occurs by applying the appropriate ith entry of the key, ... Since Kj is an element of a uniformly distributed random **sequence**, ...

Computer accessing system

US Pat. 4310720 - Filed Mar 31, 1978 - Pitney Bowes Inc.

... means general- J0 ing the first pseudorandom number **sequence** comprises an access unit, the access unit further including first **encryption** means adapted ...

Protected software access control apparatus and method

US Pat. 4652990 - Filed Oct 27, 1983 - Remote Systems, Inc.

More generally, the "**encryption** key" of this invention is used as a pattern for shifting the bits of the customer identification to produce a new **sequence** ...

Encryption device

US Pat. 5398283 - Filed Nov 3, 1993 - Krypto Fax Partners L.P.

This invention does not require the use of any particular **encryption** system, although the random number **sequence** described above is believed to be more than ...

Virtual encryption scheme combining different encryption operators into compound encryption ...

US Pat. 6233338 - Filed Apr 9, 1999 - Harris Corporation

US BI code in the **encryption** control **sequence** 140 is processed. The compound-encrypted data is then transmitted over communication path, ..

'Virtual' encryption scheme combining different encryption operators into compound-encryption ...

US Pat. 6868159 - Filed Apr 5, 2001 - Harris Corporation

US B2 code in the **encryption** control **sequence** 140 is processed. The compound-encrypted data is then transmitted over communication path, ...
